# Introduction

Première dia...

A photograph of a person's silhouette writing on a whiteboard. The whiteboard contains two mathematical equations. The first equation is  $\frac{\partial}{\partial t} + \frac{\partial}{\partial x}(e^u) = 0$ . The second equation is  $\frac{\partial u}{\partial t} + u \frac{\partial u}{\partial x} = -\frac{1}{c} \frac{\partial p}{\partial x}$ .
$$\frac{\partial}{\partial t} + \frac{\partial}{\partial x}(e^u) = 0$$
$$\frac{\partial u}{\partial t} + u \frac{\partial u}{\partial x} = -\frac{1}{c} \frac{\partial p}{\partial x}$$

- Item 2

# Qu'est-ce que R ?

R est un logiciel pour la visualisation et l'analyse des données.
